

COLOUR SHOT

INSTRUCTIONS FOR USE

IMPORTANT

To manage overspray on concrete and other hard surfaces, pre-wet that surface PRIOR to spraying nearby. COLOUR SHOT will stain when dry. RINSE any overspray immediately, before continuing.

YOU WILL NEED:

1. Pump action garden pressure spray bottle
2. Funnel
3. Measuring cup
4. Gloves
5. Clothing protection
6. Watering can with clean water to wash spillage

HOW TO USE

- Shake concentrate well each time before use
- Dilute 50ml concentrate per litre of clean water
- Apply using any pump action garden pressure sprayer
- Shake spray bottle well after mixing and hold tip of spray nozzle close to the ground
- Rinse spray bottle and nozzle immediately after use
- Apply in 2 light coats, do not over apply
- Allow the first coat to dry before applying the second coat, perpendicular to the first
- Colour dries quickly, but allow 24 hours to fully cure
- Allow to cure before locking mulch into place with LANDSCAPE LOCK Mulch Lock

WARNING

COLOUR SHOT STAINS : Colour Shot will permanently stain both soft and hard surfaces, use gloves and avoid spilling/splashing on clothing

DO NOT APPLY EXCESS VOLUME : The colours are all water-based dyes containing pigments in suspension that are absorbed by the mulch pieces. If applied too heavily, pigment may dry on the surface of the timber and be rubbed off and washed on to surrounding elements, such as rocks and driveways creating permanent stains.
